

SVG coordinate bugs broke the masks entirely. Low confidence, unusable segmentation.

A clean architectural drawing — rooms, walls, doors, windows.
This is what the model sees.

Parallel pipeline: YOLO handles simple plans fast. Purple = walls, red = doors, gold = windows.

WAVE - BUILDING WEST
PLAN 2nd FLOOR / PLAN 2. OBERGESCHOSS
1:200

WAVE Building West — dense, multi-unit, professional scale. An unseen real-world plan.

Rooms, walls, doors, windows — correctly segmented on a complex unseen plan.

[illegible]

SVG coordinate bugs broke the masks entirely. Low confidence, unusable segmentation.

YOLO High-speed specialist for simple plans

Transformer SOTA accuracy for complex structural plans

72% mIoU Final segmentation score

83.5% F1 Overall system F1-score

95.3% Boundary F1 — wall geometry ready for CAD

The lesson:It's not about the model.

It's about the hours spent in the data.
